Dear Honorable Mann,

I'm writing to supplement my opposition to the motion to withdraw of my attorney Mr. Harman.

While I'm not sure if I have enough time to show other cause that the court should denies the motion, I find it important I bring certain facts to the attention of the Court.

. It will be extremely hard for me to represent myself as pro see since English is not my native language and should my case go to a trial, I will be in a huge disadvantage.

. Since I'm the only caregiver for my sick parent, I may have to reside overseas for some times which could creat an obstacle for me to communicate with the court .

. Since I'm now fully ready and prepared to litigate my case to the end and not looking for a quick settlement, I don't see that I and my attorney have any conflict of interest anymore.

Furthermore, I don't believe my relationship with Mr Harman is harmed to a point that we can't work or trust one another anymore. I still have faith that he could win my case or get me an adequate settlement.

I hope and pray the new Judge assigned to the case denies the motion .

Very truly yours.
